Ontario Energy Board
2300 Yonge Street
27th Floor
Toronto, ON M4P 1E4

Attention: Kirsten Walli, Board Secretary

Dear Ms. Walli:

Re: LIEN
Board File No. EB-2019-0159
Enbridge Gas Inc.'s 2021 Dawn-Parkway System Expansion Project

Willms & Shier Environmental Lawyers LLP is counsel for the Low-Income Energy Network ("LIEN"). LIEN sought eligibility to intervene in the Board's proceeding relating to Enbridge Gas Inc.'s application for approval of its 2021 Dawn-Parkway System Expansion Project in so far as it related to the portion of Enbridge's application seeking approval of Enbridge's Integrated Resource Planning (IRP) Proposal for future projects.

We understand from the Board's Procedural Order No. 1 that the Board will hold a separate proceeding relating to Enbridge's IRP Proposal for future projects.

Given this:

- ♦ LIEN will seek eligibility to intervene and for a cost award in this future IRP Proposal proceeding
- ♦ LIEN has no comments on the Board's draft Issues List or scope of the hearing in this proceeding, and
- ♦ LIEN asks that the Board continue to include LIEN on all correspondence in this proceeding, as LIEN will continue to monitor this proceeding in the event that issues relevant to LIEN's mandate may arise.

Yours truly,

A handwritten signature in blue ink, appearing to read "Matt F. Gardner", with a long horizontal flourish extending to the right.

Matt Gardner
