**Subject:** Feedback: Enbridge 2021 Dawn Parkway Expansion Project, #EB-2019-0159

Dear Minister,

I am writing to respectfully ask you hold a fully transparent, oral public hearing to discuss the plan by Enbridge Gas to build a huge new gas pipeline through a provincially significant wetland in Hamilton. This pipeline will be used to import American fracked gas into Ontario in order to enable an increase of the output of our polluting gas-fired power plants by up to 400%.

It will threaten a provincially significant wetland and the three watersheds connected to it. In the midst of a climate emergency, it is imperative to have public input on a project that will keep Canada from meeting its carbon reduction commitment.

Sincerely,  
Dawn Pearson
