Dear Ms. Long,

Re: EB-2019-0018 - MANA M-Factor Cost Claim

We are counsel to the intervenors Max Aicher (North America) Ltd. and Max Aicher (North America) Bloom Mill ("**MANA**") in the above noted proceeding. We write further to the OEB's Partial Decision and Order dated January 30, 2020. Please find enclosed MANA's cost claim in the Board's prescribed form, with detailed dockets attached, filed pursuant to the *Ontario Energy Board's Practice Direction on Cost Awards* (the "**Practice Direction**").

The following are: (i) reasons as to why MANA is eligible for an award of costs pursuant to Rule 4.01 of the Practice Direction; and (ii) considerations in determining the amount of costs awarded to MANA pursuant to rule 5.01 of the Practice Direction:

- Procedural Order #1 issued by the OEB states that MANA is eligible to apply for cost awards under the OEB's *Practice Direction on Costs Awards*.
- MANA contributed to the Board's and parties' understanding of the M-Factor application by posing over 100 specific and detailed interrogatories seeking clarity on ambiguous elements of the evidentiary record.
- MANA participated responsibly in the process and took great care to limit its participation and costs to only what was absolutely necessary. For example, MANA elected to rely on transcripts of the Technical Conference rather than having counsel attend in person, having determined that Alectra's responses to MANA's detailed interrogatories provided sufficient information to be able to make submissions without having to attend the Technical Conference.

- MANA's intervenor submission took into account the evidence before the OEB, including the Applicant's responses to MANA's written interrogatories and the steps of the proceeding which MANA did not attend.
- The OEB issued its Partial Decision and Order, which, among other things, relied upon MANA's arguments (pages 24-25) respecting the Applicant's customer consultation.
- The Partial Decision and Order rejected the Applicant's proposed M-Factor as requested by MANA and others.
- MANA did not engage in any inappropriate or irresponsible conduct or any conduct which tended to lengthen the process unnecessarily.
- The OEB's tariff rates are a relatively low percentage of MANA's legal costs incurred. While MANA's submissions were focused on its direct interests, its position benefitted many other ratepayers who were not participating in the proceeding.
- The attached request for costs excludes all time spent on the capitalization and IRM portions of the application (which was minimal as MANA decided early on to focus only on the M-Factor).
- The attached request for costs also excludes any claim for time spent on MANA's intervenor request or responding to the Applicant's objections to the intervenor request.

Yours truly,

Mike Richmond
