**Subject:** 2021 Dawn-Parkway System Expansion Project

Esteemed Board Member of the 2010 Dawn-Parkway System Expansion Project,

I am writing you today as a concerned citizen and resident of Ontario.

While considering Enbridge's proposed Dawn Parkway expansion I am asking that climate change must be considered, and the environmental effects of the fracking in Pennsylvania must also be considered, in the process of this pipeline approval

This pipeline is being proposed in Canada and through Ontario because states in the US have outlawed fracking, the transportation of fracked gas, and have stopped pipeline expansion. Ontario can not be used as an end-run to circumvent these laws.

Ontario should not support this highly damaging infrastructure and not enable the transportation of fracked gas around where it is not lawful to do so in the U.S.

Please consider the environmental effects of this proposal. They will be devastating for generations for all Ontarians and Canadians.

Emily Hurson
