Subject: Letter of comment re: Enbridge 2021 Dawn Parkway Expansion, #EB-2019-0159

Dear board members,

I write as a resident of Hamilton, a lover of the outdoors and a father of three.

It is critical that you consider the wider consequences of your decisions. Decisions can no longer be based only on local and near-term considerations. Every decision we make has impacts far beyond the immediate and apparent ones. I implore you to act wisely and responsibly and to consider the full range of consequences resulting from your decisions regarding the proposed Enbridge 2021 Dawn Parkway Expansion.

This means:

1. You need to hold **fully transparent oral hearings**
2. You must act on the realization that we can **no longer afford business as usual**
3. **You have to take into account the risks and costs** associated with both the **upstream and downstream impacts** more greenhouse gas pollution and the expansion of the natural gas industry
4. You need to recognize that the proposed pipeline is incompatible with the widely accepted understanding that we must **cut greenhouse gas emissions at least in half by 2030**

Prudent and wise decisions are necessary for us all at this time. Good decisions require good processes. I urge you to exercise the greatest caution in your considerations.

Sincerely,

David Mivasair
