Subject: Proposed dawn parkway Expansion Project

Attention Minister Jeff Yurek,
Cc: Ontario Energy Board

I am writing as a citizen deeply concerned about the Proposed Dawn Parkway Expansion Project. I am writing to demand a public, transparent oral hearing so representatives of Enbridge can be accountable to us in this region and answer our questions. Please try and convince us why we should allow this giant destructive pipeline to be built on our watch? There is absolutely no good reason.

Humanity is rapidly running out of time to transform our economy and redefine our relationship to the land. This means no more business as usual. There are risks and costs associated with more greenhouse gas pollution and the development / operations of these industries. I know fossil fuel companies do not want us to consider these things.

The world's climate scientists warned in October 2018 that we must **cut greenhouse gas emissions at least in half by 2030**, and since then the warnings have become dire. As stewards of this land, we are not interested in sacrificing this delicate ecosystem for short term profits that will only benefit Enbridge, and the American economy.

Anne Dalla Rosa
