1. INTRODUCTION AND SUMMARY

Alectra Utilities Corporation (Alectra Utilities) filed an incentive rate-setting mechanism (IRM) application with the Ontario Energy Board (OEB) on May 28, 2019 under section 78 of the *Ontario Energy Board Act, 1998* (OEB Act) seeking approval for changes to its electricity distribution rates to be effective January 1, 2020. Alectra Utilities included a proposal for additional capital funding (M-Factor) and a request to reverse the outcome of a prior OEB decision on capitalization policy.

Under section 78 of the OEB Act, a distributor must apply to the OEB to change the rates it charges its customers. This application covers each of the former rate zones of Enersource Hydro Mississauga Inc. (Enersource), PowerStream Inc. (PowerStream), Hydro One Brampton Networks Inc. (Brampton), Horizon Utilities Corporation (Horizon), and Guelph Hydro Electric System Inc. (Guelph).

In Procedural Order No. 1 issued on July 9, 2019, the OEB determined that it would process Alectra Utilities' application in three streams, namely the IRM, M-Factor, and capitalization policy.

On December 12, 2019, the OEB issued a Partial Decision and Interim Rate Order addressing the issues included in the IRM stream of this application.

On January 30, 2020, the OEB issued a Partial Decision and Order (Partial Decision) addressing issues related to the M-Factor and capitalization policy elements of this application. This Partial Decision and Order established a schedule for a Draft Rate Order (DRO) process.

Alectra Utilities filed a DRO on February 10, 2020. OEB staff filed its comments on the DRO on February 18, 2020, and Alectra Utilities filed its reply submission on February 24, 2020. No other submissions were received.

On February 27, 2020, Alectra Utilities filed a letter with the OEB, stating that it will amend its current application to request incremental capital funding for 2020 projects that meet the Incremental Capital Module (ICM) criteria. Alectra Utilities noted that it continues to evaluate whether it will seek incremental capital finding for other years as part of this amendment, and that it intends to file an amendment to the application no later than April 30, 2020.

The OEB accepts the updated proposed Tariff of Rates and Charges and Bill Impacts for the Horizon rate zone (RZ) filed in the DRO. The OEB also accepts the calculation of the 2017 Earnings Sharing Mechanism (ESM) rate rider for the Horizon RZ and the Draft Accounting Order for the Guelph RZ filed in the DRO. The OEB also accepts the updates to the DRO, as filed in Alectra Utilities' DRO reply submission, for the

depreciation calculations in the capitalization deferral accounts. In light of Alectra Utilities' plan to file an amendment to the current application, as noted in its February 27 letter, the OEB approves the Tariff of Rates and Charges attached as Schedule A on an interim basis.

As a result of this Interim Rate Order, the total bill impact by RZ for a typical residential customer consuming 750 kWh per month, before taxes and the Ontario Electricity Rebate,¹ is as follows:

Table 1: Bill Impact by Rate Zone

Rate Zone	Change in Monthly Bill (\$)	Change in Monthly Bill (%)
Enersource RZ	1.35	0.97
PowerStream RZ	1.87	1.34
Brampton RZ	2.03	1.48
Horizon RZ	2.37	1.70
Guelph RZ	(0.40)	(0.28)

¹ O. Reg 363/16, s. 3, effective November 1, 2019

2. CALCULATION RELATED TO THE CAPITALIZATION DEFERRAL ACCOUNT

OEB staff filed its submission on the DRO on February 18, 2020. OEB staff submitted that Alectra Utilities' DRO is consistent with the OEB findings in the Partial Decision, with the potential exception of the calculations for depreciation in the capitalization deferral accounts for the Horizon RZ and Guelph RZ.

OEB staff noted that, in Alectra Utilities' updated calculations for the capitalization deferral accounts, the 2017 to 2019 gross property, plant and equipment (PP&E) changes for the Horizon RZ were excluded; however, the depreciation impacts associated with those changes were included. OEB staff submitted that this appears to be inconsistent with the Account 1576 approach. OEB staff made a similar submission with respect to the depreciation impacts in the Guelph RZ associated with the 2019 gross PP&E change, noting the OEB's findings that the effective date for the Guelph RZ capitalization deferral account would be January 1, 2020.²

In its reply submission filed on February 24, 2020, Alectra Utilities agreed with OEB staff that, consistent with the exclusion of the 2017 to 2019 gross PP&E change for the Horizon RZ and the 2019 gross PP&E change for the Guelph RZ, the associated depreciation impacts should also be excluded. Alectra Utilities confirmed that all impacts for the Horizon and Guelph RZs should be effective January 1, 2020.

Findings

The OEB finds that Alectra Utilities' DRO is consistent with the OEB's findings in the Partial Decision with the exception of the depreciation impacts associated with PP&E changes in Horizon RZ from 2017 to 2019 and Guelph RZ in 2019, which should be excluded. The OEB agrees that all impacts for the Horizon RZ and Guelph RZ should be effective January 1, 2020.

² Partial Decision and Order, EB-2019-0018, January 30, 2020, page 39

3. RATE ORDER

The OEB has reviewed the information filed by Alectra Utilities and OEB staff. The OEB finds that the DRO as modified in Alectra Utilities' reply submission is in accordance with the Partial Decision. The approved Tariff of Rates and Charges attached as Schedule A of this Interim Rate Order includes the rates approved in the Partial Decision and Interim Rate Order issued on December 12, 2019 and the Partial Decision issued on January 30, 2020.

4. IMPLEMENTATION AND ORDER

In accordance with the Partial Decision issued on January 30, 2020, the new 2017 ESM rate riders for the Horizon RZ in the Tariff of Rates and Charges are to be effective on March 1, 2020. A new deferral account has been set up for the Guelph RZ (the associated Accounting Order is attached as Schedule B) on the same basis as the capitalization deferral accounts for the other RZs, effective January 1, 2020.

THE ONTARIO ENERGY BOARD ORDERS THAT:

1. The Tariff of Rates and Charges set out in Schedule A of this Interim Rate Order is approved. Alectra Utilities Corporation shall notify its customers of the rate changes no later than the delivery of the first bill reflecting the new rates.
2. The Accounting Order for the Guelph rate zone set out in Schedule B of this Interim Rate Order is approved effective January 1, 2020.

ACCOUNTING ORDER

ACCOUNT 1508 OTHER REGULATORY ASSETS, SUB-ACCOUNT IMPACT OF POSTMERGER CAPITALIZATION POLICY CHANGES - GUELPH RATE ZONE

The purpose of the deferral account will be to record the financial differences arising as a result of the change to the capitalization policy for the Guelph Rate Zone ("GRZ"), effective January 1, 2020, as follows:

1. Alectra Utilities will record in this deferral account the cumulative difference between the property, plant and equipment ("PP&E") under the pre-merger capitalization policy and the PP&E under the post-merger capitalization policy. A journal entry to record the variance will be booked at the end of the fiscal year of each year, until the next cost of service rebasing year;
2. The amount of the cumulative variance recorded in this account will be recovered from, or refunded to, ratepayers in the next cost of service rebasing year;
3. Upon disposition of the balance in the deferral account, a rate of return component will be applied to the balance based on the disposition period to determine the amount to be used to calculate rate riders. The weighted average cost of capital to be used and rate of return component will be determined at the time the accounts are disposed; and
4. Interest carrying charges will not be applied to the deferral account.

A sample journal entry is provided below:
