Subject: Comments on Enbridge gas pipeline proposal EB-2019-0159

To Ontario Energy Board,

It is absolutely ridiculous that during a potentially catastrophic climate crisis, we continue to subsidize oil and gas industry expansion. All the while, not only not investing in renewable development but actually spending millions of dollars to cancel renewable projects already in the works. Shame on you! Wake up! Ontarians want to be at the forefront of the green economy. Clearly this is not the government to get us there, so we will definitely make that clear in the next election and vote you out. However, in the meantime I do not want any more of my tax dollars going to oil and gas development. You work for us! Its time to face reality and move towards a green economy. This is what we expect and demand.

Michelle Woulfe
