Subject: Comments on Enbridge gas pipeline proposal EB-2019-0159

To Ontario Energy Board,

Please listen to the growing concern of the people of Ontario, the Enbridge Dawn-Parkway pipeline is not in any of our best interests.

We desperately need to invest in energy projects that are sustainable and workable in the long term. Fossil fuel projects are neither of these.

There are alternatives and there are researchers who need funding to improve renewable energy, this is where our tax dollars need to go, to forward-thinking future-oriented projects, not backward thinking pipeline projects.

Mary English
