Subject: My comments on Enbridge gas pipeline proposal EB-2019-0159

To Ontario Energy Board,

The Enbridge Dawn-Parkway pipeline proposal is a matter for all Ontarians to discuss. Please hold a hearing open to the public on this proposal.

My opinion is that because Ontario's environment plan relies on significantly decreasing natural gas emissions to meet its carbon pollution reductions, higher pipeline capacity is not something Ontario should consider.

Furthermore, because Ontario ratepayers subsidize pipeline costs, pipeline reviews need to assess the economic risks of projects in the face of global commitments to reduce fossil fuel use and to consider alternatives like investments in energy efficiency, conservation and renewable energy.

Patrick Hall
