Dear Ms. Long:

**Re: Elexicon Energy Inc. – Veridian Rate Zone  
2020 Price Cap IR Distribution Rate Application  
OEB File No: EB-2019-0252**

Elexicon Energy Inc. ("Elexicon") has reviewed the Ontario Energy Board ("OEB") draft decision and rate order for the above noted application and appreciates the opportunity to provide the following comments:

- Draft Rate Order – the page header does not currently include a line "Tariff of Rates and Charges"
- Rate Generator Model – While the draft decision and rate order correctly reflect the updated MicroFit monthly service charge of \$4.55 per month, the amount was not updated in the Rate Generator Excel model (Tab 19)

Although relatively minor in nature, for consistency, Elexicon requests that the above items be corrected.

In addition, Elexicon notes that wording provided on page 8 of the draft decision indicates that Elexicon Veridian Rate Zone ("VRZ") follows a different methodology for settlement and accounting of commodity accounts than the OEB outlines in its February 2019 accounting guidance for Accounts 1588 and 1589. Elexicon would like to clarify that the settlement methodology is aligned with the OEB's guidance and it was only VRZ's approach to an accounting entry that differed slightly. Despite the minor accounting process difference there is no impact whatsoever to the account balances. Despite this, the OEB has indicated that a more strict adoption of the guideline is
