**Re: EB-2020-0066 Enbridge Voluntary RNG Program
Pollution Probe Intervenor Request Letter**

Dear Ms. Long:

Pollution Probe is in receipt of Enbridge's application for its Voluntary Renewable Natural Gas (RNG) Program and requests intervenor status and that it be eligible for the recovery of reasonably incurred costs for its participation.

Pollution Probe is a frequent intervenor in Board proceedings and a copy of our current Annual Filing can be found on the Board's website at the following location:

<http://www.rds.oeb.ca/HPECMWebDrawer/Record/647508/File/document>

Goals and Objectives

Pollution Probe intends to focus on the following areas during this proceeding.

- The importance and relevance of RNG options as outlined in Provincial policy and in alignment with other key initiatives including enhancing Ontario's distributed energy resources.
- Consumer (including municipal), financial and environmental benefits and costs related to the proposed program.
- The provision of related materials (e.g. Pollution Probe's Future of Natural Gas) to assist the Board in its review of the request.

Intention to Seek Cost Awards

Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects, such as on community energy planning, future of natural gas and regulated utility innovation, from a variety of public and private sources. Without the prospect of an award of costs, Pollution Probe's ability to participate in the consultation process would not be possible.

Pollution Probe has been an active and valuable participant in proceedings before the Ontario Energy Board and will continue to coordinate its activities, where appropriate, with other parties which represent consumer, municipal and environmental interests in Ontario.
