Dear Ms. Walli:

**RE: EB-2005-0551 Union Settlement Agreement dated June 13, 2006 (page 12) –
Power Services Review**

As part of the EB-2005-0551 Settlement Agreement, parties agreed to the development of four (4) new ex-franchise services (F24-T, F24-S, UPBS and DPBS) to meet the needs of gas fired power generators. Parties also agreed that:

“once sufficient operating experience has been gained and in any event no later than March 31, 2009, interested customer groups and Union will convene to evaluate and discuss the experience and success of the services being offered as a result of this proceeding.” (EB-2005-0551, Union Settlement Agreement, page 12).

Customers are only now beginning to take these services. As a result, Union and its customers will not have gained sufficient operating experience by March 31, 2009 to conduct a meaningful review of the power services. Accordingly, Union is proposing to delay the review, such that it will take place no later than March 31, 2010. This delay is supported by APPrO in their letter dated May 20, 2008.

If you have any questions, please contact me.

Sincerely,
