The rates increasing will directly impact our way of life. Instead of being able to enjoy our home we will constantly stress about using no hydro. The level of life enjoyment should be everyone's concern. No one should feel compelled to force their eyes in the dark or reduce their number of showers/baths because of this stress. They have created a monopoly on hydro. We only have one choice of provider, it is clearly becoming problematic since they wish to increase tremendously but are not funding better sources of energy. Please do not allow Hydro Ottawa and other companies to exploit consumers.
