It is not clear to me why Hydro Ottawa is planning to increase its charges, a. What is the reason for the rate increase?

b. Why are we paying so much to begin with? For example, why Hydro Ottawa is not considering sourcing its electricity from Hydro Quebec? Running wires to the Quebec side is intuitive. Especially since the Ottawa river is not that wide. If Hydro Ottawa has a contract with Hydro One why not cancel it? Or at least advise the public how long is this contract.
