Ms. Christine E. Long  
Registrar and Board Secretary  
Ontario Energy Board  
27-2300 Yonge Street  
Toronto, ON M4P 1E4

Dear Ms. Long:

**Re: EB-2019-0183: Enbridge Rate M17 and Owen Sound Reinforcement Project Leave to Construct Application – ENGLP Response to Decision and Order Dated April 9, 2020**

---

This correspondence is in response to the Ontario Energy Board's (OEB) Decision and Order dated April 9, 2020 (Decision) wherein ENGLP was directed to inform the OEB and Enbridge of its preferred load balancing approach in respect of the approved Rate M17, by April 17, 2020.

In the Decision, the OEB determined that ENGLP should have the option of (a) the original Limited Balancing Agreement (LBA) offered by Enbridge Gas, under the same terms as those provided to the Union North and EGD rate zones or (b) the load balancing approach set out in the approved application.

ENGLP prefers the original LBA offered by Enbridge Gas.

We trust the enclosed is satisfactory. Should you have any questions, please don't hesitate to contact the writer.

Sincerely,

*[Original Signed By]*
