Enbridge Gas Inc. has applied for approval to increase the maximum operating pressure of the Black Creek, Coveny and Wilkesport natural gas storage pools, in Sombra Township in the County of Lambton.

Learn more. Have your say.

Enbridge Gas Inc. has applied to the Ontario Energy Board for approval to increase the maximum operating pressure of its Black Creek pool, Coveny pool and Wilkesport pool, from the previously approved operating pressure of 15.8 kPa/m (0.7 psi per foot) to 17.2 kPa/m (0.76 psi per foot). Enbridge Gas Inc. says that the increase in operating pressure will increase the storage capacity of the pools.

A map of the general location of the three natural gas storage pools is below.

As part of its review of this application, the OEB will assess Enbridge Gas Inc.'s compliance with the OEB's *Environmental Guidelines for the Location, Construction and Operation of Hydrocarbon Pipelines and Facilities in Ontario*.

Enbridge Gas Inc.'s application includes a letter from the Ministry of Energy, Northern Development and Mines which says that based on the information provided by Enbridge Gas Inc., the Ministry of Energy, Northern Development and Mines is of the view that the project will not result in any appreciable adverse impacts on the asserted or established rights of any First Nation or Métis communities and that no duty to consult has been triggered. The letter further says that should an Indigenous community provide Enbridge Gas Inc. with information indicating a potential adverse impact of the project on its Aboriginal or Treaty Rights, Enbridge Gas Inc. must notify the Ministry of Energy, Northern Development and Mines. In that event, the OEB may be required to assess whether the duty to consult with Indigenous communities potentially affected by the proposed project has been discharged with respect to the application.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.

ONTARIO ENERGY BOARD

IN THE MATTER OF the Ontario Energy Board Act, 1998, S.O. 1998, c.15, Schedule B; and in particular section 38(1) thereof.

AND IN THE MATTER OF an Application by Enbridge Gas Inc. for an Order to vary the maximum operating pressure (“MOP”) of the Black Creek pool, the Coveny pool and the Wilkesport pool which are part of the Enbridge Gas’ Tecumseh storage operations;

ENBRIDGE GAS INC.

1. Enbridge Gas Inc. (“Enbridge Gas”) is proposing changes to the Black Creek pool, the Coveny pool and the Wilkesport pool (“Project”) which are part of the Enbridge Gas’ Tecumseh storage operations. Each of the pools is a designated storage area (“DSA”) as defined in the *Ontario Energy Board Act, 1998*.
2. Enbridge Gas wishes to operate the Black Creek, Coveny and Wilkesport pools (“Pools”) to a maximum pressure gradient of 17.2 kPa/m (0.76 psi/ft) during the 2020 injection season as permitted under the CSA Standard Z341.1-18. Increasing the Maximum Operating Pressure (“MOP”) of the storage pools will allow Enbridge Gas to store additional natural gas. The additional storage capacity created by the Project will be sold to third parties as part of the Enbridge Gas unregulated storage portfolio.
3. The Project will include the installation of wellhead upgrades and the installation of emergency shut-down valves on each of the natural gas storage wells within each DSA.

4. Enbridge Gas therefore applies to the Ontario Energy Board (“OEB” or the “Board”) for leave to operate the Black Creek¹ and Coveny¹ and Wilkesport² pools above the current 15.8 KPa/m (0.7 psi/ft).
5. Enbridge Gas requests that the following condition be placed on the Black Creek, Coveny and Wilkesport pool similar to the condition that was attached to the OEB’s approval in EB-2017-0362 proceeding for delta pressuring of the Sarnia Airport Pool:

Enbridge Gas shall not operate the storage pool above a pressure representing a pressure gradient of 17.2 kPa/m (0.76 psi/ft) of depth without leave of the OEB. Enbridge Gas shall provide summaries of an engineering study and geological study in support of any leave applications and a formal confirmation from the Ministry of Natural Resources and Forestry that operating the pool at the increased operating pressure complies with the requirements of the CSA Z341 standard.

6. Attached hereto as Attachment 1 is a map showing the location of these pools.
7. In order to meet the proposed in-service date of November 2020, Enbridge Gas requests an approval by June 2020. Enbridge Gas therefore applies to the Board for a timely approval of this Application.
8. Enbridge Gas requests that a copy of every document filed with the Board in this proceeding be served on the Applicant and the Applicant’s counsel, as follows:

¹ The Current MOP for Black Creek and Coveny was approved in EBLO 258, ENRM 108, EBO 196/197/198.

² The Wilkesport pool does not have a condition of approval limiting the pressure. However, EBRM 91 established a guideline that limited all pools to a pressure gradient of 0.7 psi/ft (15.9 kPa/m) without requiring leave from the OEB.

**Re: Enbridge Gas Inc. (Enbridge Gas)
Ontario Energy Board (Board) File No.: EB-2020-0074
2020 Storage Enhancement project – Notice of Application**

On February 7, 2020, Enbridge Gas Inc. (Enbridge Gas) applied to the Ontario Energy Board (OEB) under section 38(1) of the *Ontario Energy Board Act, 1998* for an order to vary the operating pressure in its Black Creek, Coveny and Wilkesport natural gas storage pools above the pressure previously set by the OEB.

On March 12, 2020, the Board issued the Notice of Application and the Letter of Direction for the proceeding. The Board has directed Enbridge Gas to serve a copy of the Notice of Application along with Enbridge Gas' Application on all property owners and encumbrancers with lands or interest in lands.

Enclosed please find a copy of the Board's Notice of Application and Enbridge's Application. The Evidence as filed with the Board for the 2020 Storage Enhancement Project can be found by accessing the link below.
