ONTARIO ENERGY BOARD NOTICE TO CUSTOMERS OF HYDRO 2000 INC.

Hydro 2000 Inc. has applied to raise its electricity distribution rates.

Learn more. Have your say.

Hydro 2000 Inc. has applied to the Ontario Energy Board to raise its electricity distribution rates effective May 1, 2020. If the application is approved, a typical residential customer, and a typical general service customer of Hydro 2000 Inc., would see the following increases:

Residential (750 kWh)	\$4.42 per month
General Service less than 50 kW	\$4.40 per month

Other customers, including businesses, may also be affected. It is important to review the application carefully to determine whether you may be affected by these changes.

THE ONTARIO ENERGY BOARD WILL HOLD A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider Hydro 2000's application. During this hearing, you'll be able to ask questions, see and speak to Hydro 2000's representatives, and see how Hydro 2000's rates are calculated. We will also hear questions and comments from individuals who have registered to participate in the OEB's hearing. At the end of the hearing, the OEB will decide what, if any, rate increases will be allowed.

Distribution rates in Hydro 2000's area will apply for a full year of these rates, applying an OEB-approved formula which is based on inflation and other factors intended to promote efficiency. You may find past notices of future rate changes made by applying the formula.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially stable and efficient energy sector that provides you with reliable energy services at a reasonable cost.

BE INFORMED AND HAVE YOUR SAY

You have the right to information regarding this application and to be heard in this process:

1. You can review Hydro 2000's application on the OEB's website now.
2. You can file a written reply to the application, which will be considered during the hearing.
3. You can attend the public hearing to ask questions, ask for information, and make comments, or submit the OEB's hearing application. Hydro 2000's representatives will be present at the OEB's hearing to answer questions and to make comments on the application.
4. If you don't attend the hearing, you will not have any further say in the process.
5. If you don't attend the hearing, you will not have any further say in the process.

LEARN MORE

These proposed changes relate to Hydro 2000's distribution rates. They make up part of the Hydro 2000's rates of the last form on your bill. Our last notice for this rate is 2019-2020. Bonjour,

Suite à l'application de coût de service auprès de la commission de l'énergie de l'Ontario, nous devons vous soumettre la documentation en attache vue que vous êtes l'actionnaire unique de l'entreprise.

Vous aurez sûrement des questions vue que j'en ai déjà à la page Facebook de Hydro 2000. Le coût de service est un processus qui doit être fait à tous les cinq (5) ans. Vue les circonstances incontrôlables précédentes chez Hydro 2000, l'application n'est pas été soumise de puis 2012. Aussi, il est à noter que ceci est un document d'environ 800 pages compilés à partir des données depuis 2012 donc nous avons y avons travaillé depuis juin 2019 pour soumettre en février, 2020.

C'est malheureux que celui-ci coïncide avec COVID-19. Il faut tout de même noter que Hydro 2000 facture selon les taux établis en 2012.

A cette date, la commission de l'énergie de l'Ontario demande que les taux approuvés pour entrer en vigueur le 1<sup>er</sup> mai, si ceux-ci sont approuvés, soient repoussés au 1<sup>er</sup> novembre, 2020.

Espérant le tout conforme aux directives. Si vous avez besoin de plus amples informations, n'hésitez pas à communiquer avec nous.
