Attn: Christine E. Long, Registrar and Board Secretary

By electronic filing and e-mail

Dear Ms Long:

**Re: EB-2020-0091 -Enbridge Gas Integrated Resource Planning Proposal
GEC Intervention and Request for Cost Eligibility**

1. The Green Energy Coalition (GEC) hereby seeks intervenor status in this matter and requests that it be found eligible for costs.
2. The GEC is comprised of the Greenpeace Canada, Sierra Club of Ontario and Sierra Club of Canada. GEC's member groups are charitable or non-profit organizations active on environmental and energy policy matters.
3. GEC has been an active participant in pipeline approvals, past Board considerations of IRP, and DSM regulatory matters before the Board and has significant concerns with respect to the current proposal for a generic approval of Enbridge's IRP approach and associated regulatory requirements. GEC expects to be an active intervenor in this proceeding. GEC will consult with Board Staff and other parties before determining its need for expert assistance and whether it will present expert testimony.
4. GEC requests that this matter proceed by way of oral hearing. This is so, *inter alia*, because the application:
 - includes a request for a generic approval of an IRP regulatory approach;
 - must take account of Enbridge's past compliance with Board related to IRP;
 - has major implications for system planning, customer rates, and compliance with government policy goals related to environmental compliance;
 - may lead to potentially significant impact upon sensitive lands and/or communities;

5. GEC requests that the following persons be included on the distribution list:

David Poch,
