**Re: EB-2019-0037 Greater Sudbury Hydro Inc. (GSHi) 2020 Cost of Service
Pollution Probe Letter**

Dear Ms. Long:

The OEB issued a letter dated April 28, 2020 requesting comments from parties to the above noted proceeding on the rate deferral proposal of Greater Sudbury Hydro Inc. (GSHi) as outlined in their letter to the OEB dated April 23, 2020.

Subject to the OEB's acceptance of the Settlement Proposal filed in this proceeding, Pollution Probe has no comments related to GSHi's proposed deferral of its increases in base distribution rates. This assumes that clearance of those deferred amounts from the deferral account are done in accordance with the terms included in the Settlement Proposal.

Respectfully submitted on behalf of Pollution Probe.
