Question: **GFL-1**

Reference: • Exhibit B, Tab 2, Schedule 2, paras 3-4
 • Exhibit B, Tab 2, Schedule 1, para 12

Preamble: Enbridge Gas acknowledges that RNG suppliers would prefer that it enter into long-term (i.e., multi-year) RNG supply commitments which support investment in RNG production facilities. However, Enbridge Gas says that it is not prepared to enter into such long-term commitments at this time without having a mechanism in place that would ensure the recovery of the associated RNG costs in rates years into the future.

a) Does Enbridge Gas believe that Board approval of the Program would enable it to begin entering into long-term (i.e., multi-year) RNG supply commitments?

If so, please provide the proposed timeline for initiating long-term RNG supply commitments, given an early 2021 start to the Program.

If not, please provide a detailed description of the other criteria that Enbridge Gas considers necessary in order to initiate long-term RNG supply commitments.

b) What does Enbridge Gas envisage in terms of the duration of offtake agreements with RNG suppliers once a mechanism is in place to ensure the recovery of RNG costs?

ALL OF WHICH IS RESPECTFULLY
SUBMITTED THIS
