Attention: Christine E. Long
Board Secretary

Dear Ms. Long:

Re: EB-2019-0159: Enbridge Gas Inc., Application to construct natural gas pipeline and associated facilities in the City of Hamilton and Request for review of Integrated Resource Plan (IRP) Proposal

Pursuant to Procedural Order No. 6 dated May 7, 2020, BOMA makes the following submissions.

BOMA has reviewed the submissions of parties who have already responded to the Board's request in Procedural Order No. 6. BOMA concurs generally with the proposals made by SEC. With respect to SEC's proposal #2, BOMA suggests that the Board grant the adjournment proceedings, subject to a requirement that none of the regulatory steps or timelines of the application, which would otherwise have applied after all the interrogatories had been filed, would be conflated or shortened as a result of the adjournment. With respect to EGI's proposal to delay the interrogatory responses until the end of the adjournment, BOMA suggests that EGI should be ordered to answer all of the interrogatories that it can now, and defer only those responses that will require further review due to the actual or forecast impacts of the COVID-19 pandemic. For those responses dealing with forecasts and assumptions that will be affected by the pandemic, it would be helpful if EGI could provide both its originals and assumptions and the changes to the forecasts and assumptions which have been made to reflect the impact of the pandemic.

Yours truly,

FOGLER, RUBINOFF LLP
