## **BY RESS**

### **Ms. Christine Long**

Board Secretary  
Ontario Energy Board  
2300 Yonge Street, Suite 2700, P.O. Box 2319  
Toronto, Ontario M4P 1E4

Dear Ms. Long:

**Re: EB-2020-0066 – Enbridge Gas Inc. – Voluntary Renewable Natural Gas Program**

We are writing on behalf of Environmental Defence to request intervenor status and costs eligibility in the above proceeding as a leading environmental organization that represents both the public interest in environmental protection and the interests of consumers seeking cost-effective measures to reduce carbon emissions.

### **Nature and Scope of Intended Participation and Interest in Proceeding**

Environmental Defence wishes to file interrogatories, participate in the hearing, review and test the evidence, make submissions, and seek a cost award. Environmental Defence's interest in this proceeding is in promoting both the public interest in environmental protection and the interests of consumers seeking cost-effective measures to reduce carbon emissions. Environmental Defence wishes to address important issues relating to this mandate, such as the optimal program design, appropriate reporting, and cost-effectiveness.

### **Oral Hearing**

Environmental Defence requests an opportunity to make submissions on whether an oral hearing should be held after interrogatory responses have been received. At that stage we will have a better understanding of the issues and have more information on potential measures to proceed with applications in a safe way in the context of COVID-19.

### **Environmental Defence**

#### *A. Mandate and Objectives of Environmental Defence*

Environmental Defence has been working since 1984 to protect Canadians' environment and human health. Environmental Defence's mandate and objective is to challenge, and inspire

change in government, business and people to ensure a greener, healthier and prosperous life for all. Its vision is to create a world Canadians are proud to pass on to their children.

### *B. Membership and Constituency*

Environmental Defence is supported by many thousands of donors across the province and country. It sees its constituency as Canadians who are concerned about the environment and the legacy that we will pass on to our children.

### *C. Types of Programs and Activities that Environmental Defence Carries Out*

Environmental Defence has been highly successful in its public interest advocacy on energy issues. Environmental Defence's environmental work, on issues ranging from toxic chemicals to clean beaches, has led to concrete improvements in the lives of Canadians. For example, the dangerous chemical Bisphenol A ("BPA") is now banned in baby bottles in Canada due to concerns first raised by Environmental Defence in 2007. For many years, Environmental Defence has participated in the federal government's Chemicals Management Plan.

Environmental Defence is also the coordinator of Blue Flag Canada, which certifies beaches so that Ontario families can enjoy this public resource. It also co-founded Blue Green Canada with the United Steelworkers, which promotes green energy initiatives that have positive employment and economic impacts.

Environmental Defence also publishes reports and guides in the area of energy conservation, efficiency, and policy. For example, it has created an interactive online tool to help energy consumers reduce their bills through energy efficiency initiatives. Some further publications include:
