Dear Ms. Long:

**Re: Enbridge Gas Inc. (Enbridge Gas) - EB-2019-0271 - 2021 DSM Plans**

The Green Energy Coalition is in receipt of Enbridge Gas Inc.'s Argument in Chief in which they request an earlier deadline for intervenor arguments. We are sympathetic to the intent of that request both to allow more time for the company to gear up for 2021 and if that acceleration would assist in moving the framework discussion ahead. However due to our need to analyze the data provided late in the day Monday and our expert's competing commitments we suggest June 12<sup>th</sup> as a workable deadline for intervenor arguments.

Sincerely,
