Attention: Christine E. Long, Registrar and Board Secretary

Dear Ms. Long:

**Re: LIEN's Comments re Draft Issues List**  
**Board File No. EB-2020-0091**  
**Enbridge Gas Inc.'s Integrated Resource Planning Proposal**

---

In accordance with Procedural Order No. 1 issued on May 21, 2020 in this proceeding, the Low-Income Energy Network (LIEN) proposes that the following two issues be added to the Issues List, unless the OEB determines that these issues are already subsumed within the existing Issues List.

Under "Specific Questions", LIEN suggests that the OEB add the following:

Is Enbridge Gas' submission that "IRP should be reviewed and treated separately from DSM" appropriate? [*quote is from Enbridge's IRP Proposal, p. 3, lines 11-12*]

How should the costs and benefits of traditional supply-side infrastructure solutions be compared with the costs and benefits of DSM, and other non-pipeline alternatives?
