**Re: EB-2020-0156 IGUA Motion Regarding Panhandle System Cost Allocation
Pollution Probe Submission**

Pollution Probe is in receipt of the OEB's Notice of Hearing and Procedural Order No. 1 dated June 17, 2020 for the above noted proceeding. Pollution Probe has reviewed IGUA's Submissions and related evidence in relation to this Motion.

Pollution Probe supports the timely resolution of cost allocation issues unless there is a specific reason for delaying the review to 2024. Cost allocation review is best done within the context of the Enbridge Rate Case to ensure that the relative and total impacts can be assessed. Pollution Probe does not have any other specific position on the submissions of IGUA at this time.

Respectfully submitted on behalf of Pollution Probe.
