

ONTARIO ENERGY BOARD

**Application by Enbridge Gas Inc. (EGI) for leave to construct natural gas pipelines and
associated facilities in the City of Markham, Regional Municipality of York**

(Low Carbon Energy Project)

**INTERROGATORY to
TECHNICAL STANDARDS AND SAFETY AUTHORITY (TSSA)**

from

INDUSTRIAL GAS USERS ASSOCIATION (IGUA)

Preamble: In its filing at page 3 TSSA suggests that *“TSSA acceptance of the risk assessment of this project done by EGI”* be a precondition of approval of the project by the OEB.

Question: Please describe in detail what *“acceptance of the risk assessment”* by TSSA entails, including the review process and methodology, assumptions made, and the extent to which the process relies on independent analysis by the TSSA as distinct from analysis done and submitted by EGI.
