**Low Carbon Energy Project**  
**TSSA file SR# 2581426**

TSSA is in process of reviewing the above-mentioned pipeline project that is submitted to OEB for leave to construct. According to the procedural order number 3, the deadline for TSSA to respond to the OEB staff integratory questions is August 07, 2020. Also, TSSA received two other interrogatory questions from other interveners on this project. Submitted questions require involvement of several departments within the organization. TSSA needs more time to properly review and prepare responses to the interrogatory questions. TSSA suggests August 14, 2020 as the new deadline to respond to the interrogatory questions.

Thank you for considering this request. For any correspondence with TSSA regarding this project, please contact the undersigned.

Yours truly,

Kourosh Manouchehri, P.Eng., PMP
