**Re: 2020 Uniform Transmission Rates
Ontario Energy Board File Number: EB-2020-0180
Errata for July 30, 2020 Decision and Order**

The EB-2020-0180 Decision and Order issued on July 30, 2020 contained typographical errors which are itemized and corrected below:

Page 1: The Interim 2020 UTRs Network Service Rate should be \$3.92/kW/Month instead of \$3.89/kW/Month.

Page 4: Table 1, FNEI 2020 charge determinants should be 552MW instead of 522MW

Page 5: Table 2, FNEI 2020 charge determinants should be 552MW instead of 522MW

Page 6: Second paragraph Hydro One's foregone revenue from January to June 2020 should be \$28.2 M instead of \$28.1 M

Pursuant to its powers under Rule 41.02 of the OEB's Rules of Practice and Procedure, the OEB may at any time, without notice or a hearing of any kind, correct a typographical error, error of calculation or similar error made in its orders or decisions.

The OEB has amended the Decision and Order to correct the errors.

The revised Decision and Order is attached. This revised Decision and Order supersedes and replaces the previously issued Decision and Order. The revised Decision and Order does not change the OEB's rulings.

Yours truly,
