I find it irresponsible for a company to be looking to increase rates at a time of financial unrest. People are struggling to maintain jobs and having to take time off due to schools reopening without daycare in place. I am not blind to the continued increase in inflation and upkeep of equipment but I disagree with the timing of this application. As Ontario residents, we are all struggling to deal with this in the best way we can and pouring more of our already strained budgets into utilities just further stretches family finances. I oppose this application and hope to see it declined for the good of the people in Durham and all over Ontario
