Dear Ms. Long,

Re: London Hydro Rates effective November 1, 2020 - EB-2019-0052

London Hydro Inc. ("London Hydro") deferred the implementation of its rates effective May 1, 2020 given the COVID-19 emergency and its potential impact on customers. London Hydro is now seeking approval to implement rates effective November 1, 2020 which includes the following components:

- Implementation of all rates that were approved under EB-2019-0052 which correlates to the disposition period approved in the Decision dated April 16, 2020.
- Implementation of Forgone Revenue Rate riders effective November 1, 2020 to be collected over a six month period ending April 30, 2021. The forgone revenue rate riders will be applied with a fixed and variable component for all rate classes with the exception of the Residential rate class which will only have a fixed rate rider.
- Implementation of the reduced microFIT rate of \$4.55 effective November 1, 2020. In addition, London Hydro proposes to apply a one-time credit to each microFIT account of \$5.10 to represent the reduction in the monthly service charge for the period of May 1, 2020 to October 31, 2020.

A model supporting the above noted items is included for review. Kindly advise if there are any questions.

Respectfully submitted
