Responses to OEB Staff Question

COVID-19 Foregone Revenue Rate Rider Model

Filed: September 18, 2020

Staff Question-1

PUC Distribution has completed the COVID-19 Foregone Revenue Rate Rider Model with a 12-month recovery period, however, notes in its covering letter that it would like to implement a 24-month recovery period starting November 1, 2020 and ending October 31, 2022.

PUC Distribution notes that given the continuing state of the COVID-19 pandemic that this option is in the best interest of our customers.

OEB staff has updated PUC Distribution's model to reflect a 24-month recovery period if the OEB approves the request.

Please confirm the accuracy of the updated model, specifically the rider calculations and the resulting tariff.

PUC Response

PUC confirms the COVID-19 Foregone Revenue Rate Rider Model, 24 month recovery period, provided September 18, 2020 is accurate.
