Dear Ms. Long:

**EB-2020-0152 – Implementing the Process for Enabling Customers to Opt Out of Time-of-Use Pricing: Communications, Reporting Requirement and Smart Metering Entity Data**

On October 2, 2020 the Ontario Energy Board (OEB) issued a letter which introduced a reporting requirement that a licenced electricity distributor must confirm in writing whether its has complied with the final amendments to the Standard Supply Service Code (SSSC) in the EB-2020-0152 proceeding.

With this letter, Hydro One Networks Inc. confirms that it has adapted its systems and processes to comply with the amendments to the SSSC that came into force on October 13, 2020.

Please do not hesitate to contact me with any further questions regarding this matter.

Sincerely,
