Hi, I'm never one to complain and always roll with inflation, however being as we're in a pandemic right now and I'm unable to work (laid off) due to Covid at our company along with over 3000 other employees. My concern is that it is difficult enough to pay bills. PLEASE DON'T RAISE the prices of distribution it's hard enough of a struggle, I don't have an extra \$ 2.81 at the end of the month.
