ONTARIO ENERGY BOARD

IN THE MATTER OF The Ontario Energy Board Act, 1998, S.O. 1998, c.15, Schedule B, and in particular, s.90 (1) and s.97 thereof;

AND IN THE MATTER OF an Application by Enbridge Gas Inc. for an Order granting leave to construct natural gas pipelines and ancillary facilities in County of Lambton, the Township of Dawn-Euphemia, Middlesex County, the Municipality of Southwest Middlesex, the Municipality of Strathroy-Caradoc and the Municipality of Middlesex Centre

LEAVE TO CONSTRUCT APPLICATION: LONDON LINE REPLACEMENT PROJECT

1. Enbridge Gas Inc. (the “Applicant” or “Enbridge Gas”) hereby applies to the Ontario Energy Board (the “OEB” or “Board”), pursuant to Section 90 (1) of the *Ontario Energy Act, 1988* (the “Act”) for an Order granting leave to construct approximately 51.5 kilometres of Nominal Pipe Size (“NPS”) 4 pipeline and 39 kilometres of NPS 6 pipeline to replace the existing London Lines (“London Line Replacement Project”, “Proposed Pipeline” or “the Project”).
2. Enbridge Gas also applies to the OEB pursuant to Section 97 of the Act for an Order approving the form of easement agreements found at Exhibit E, Tab 2, Schedule 3 and Exhibit E, Tab 2, Schedule 4.
3. Enbridge Gas has identified the need to replace the existing London Lines (“Existing Lines”) through County of Lambton, the Township of Dawn-Euphemia, Middlesex County, the Municipality of Southwest Middlesex, the Municipality of Strathroy-Caradoc and the Municipality of Middlesex Centre.
4. The Existing Lines comprise the London South Line and London Dominion Line which are two pipelines that are parallel to each other, approximately 60 km and 75 km in

length, respectively. These pipelines includes pipe segments that are NPS 8, 10 and 12 with a maximum operating pressure ("MOP") of 1900 kPa (275 psig). The existing London Lines are Enbridge Gas high pressure distribution lines that extend from the Dawn Compressor Station ("Dawn") at Dawn South London Lines Station, located near Sarnia, to Komoka Station, located near Komoka. The Applicant has determined the Proposed Pipeline is necessary to replace the Existing Lines due to integrity concerns. Details about the purpose, need and timing for the Project can be found at Exhibit B, Tab 1 of the pre-filed evidence. Details on Project Costs are shown in Exhibit F of the pre-filed evidence.

5. Exhibit A, Tab 2, Schedule 2 provides a map showing the general location of the Proposed Pipeline and associated facilities and the municipalities, and highways through, under, over, upon or across which the pipeline will pass.
6. The route and location for the proposed facilities associated with the Project were selected by an independent environmental consultant through the process outlined in the Ontario Energy Board's "*Environmental Guidelines for the Location, Construction, and Operation of Hydrocarbon Pipelines and Facilities in Ontario*" (7th Edition, 2016) (the "Guidelines"). Input from the public was sought during the route selection process and was incorporated into the final route decision. Details on the route selection and the Environmental and Socio-Economic Impact Assessment (ER) of the proposed facilities are included at Exhibit C, Tab 2, Schedule 1 of the pre-filed evidence.
7. Information on indigenous consultations and Duty to Consult activities can be found at Exhibit G of the pre-filed evidence.
8. The parties affected by this Application are the owners of lands, government agencies and municipalities over which the pipeline will be constructed, and Enbridge Gas's distribution customers with respect to quality of service and security of supply. The persons affected by this Application are the customers resident or located in the

Municipalities, the First Nation Reserves and Métis organizations served by Enbridge Gas, together with those to whom Enbridge Gas sells gas, or on whose behalf Enbridge Gas distributes, transmits or stores gas. It is impractical to set out in this Application the names and addresses of such persons because they are too numerous.

9. With leave of the Board, Enbridge Gas expects to commence construction of the Project in the second quarter of 2021. In order to meet Project timelines, Enbridge Gas respectfully requests the approval of this Application as soon as possible or not later than March 2021. Exhibit D, Tab 1, Schedule 3 provides the proposed construction schedule.
10. Enbridge Gas requests this Application proceed by way of written hearing in English.
11. Enbridge Gas requests that all documents in relation to the Application and its supporting evidence, including the responsive comments of any interested party, be served on Enbridge Gas and its counsel as follows:
