Dear Ms. Long

**RE: EB-2020-0212 Enbridge Gas
Federal Carbon Pricing Program (FCPP) Proceeding
Energy Probe Intervenor and Cost Eligibility Request Letter**

Energy Probe Research Foundation (Energy Probe) hereby applies for intervenor status and cost eligibility in the EB-2020-0212 proceeding, the application by Enbridge Gas Inc. to the Ontario Energy Board for the approval of its proposed recovery in rates of the FCPP Charges as of April 2021.

Statement of Interest

Energy Probe is a non-profit environmental and consumer organization which promotes economic efficiency in the use of resources. It will be representing its many individual residential customer supporters. Energy Probe argues for equitable rates that optimize results for all ratepayers by eliminating cross subsidies between ratepayer classes and between generations of ratepayers. It promotes sustainable resource use through individual responsibility and accountability. More information about Energy Probe can be found on the OEB website.

Energy Probe's interest in this proceeding is the impact on customers' rates resulting from:

- (i) A charge on fossil fuels and
- (ii) An Output-based Pricing system

Energy Probe will focus on examining the Company's forecasts and deferral account balances.

Hearing

Energy Probe hopes that all issues can be resolved through a written proceeding and that an oral hearing will not be necessary.

Costs

Energy Probe is a non-profit organization which relies on individual donations to help protect the public interest. Without the prospect of an award of costs, Energy Probe's ability to participate in proceedings would be very limited. Energy Probe intends to seek a cost award in this proceeding, and expects to intervene responsibly, cognizant of the Board's guidelines regarding cost awards.

Communications

Communications relating to this Intervenor and Cost Eligibility Request Letter and all documents filed with the Board by the applicant and required by Energy Probe, should be directed to its consultant:
