Dear Mr. Benum:

**Re: London Hydro Inc. (London Hydro)
Application for 2021 IRM rate application
Ontario Energy Board File Number: EB-2020-0038**

This letter is in response to your letter to the Ontario Energy Board (OEB) dated October 27, 2020, requesting an extension to the date for the filing of London Hydro's 2021 IRM rate application to December 1, 2020. London Hydro requested this extension to allow for additional time to complete the historical data extraction necessary for the completion of its application.

The OEB establishes deadlines for the filing of IRM applications each year.¹ As per the Chapter 3 filing requirements,² for applications filed after the deadline, the effective date of approved rates may be later than the proposed effective date. As a result, London Hydro's filing of their application after November 2, 2020 may result in the effective date of its approved rates being after May 1, 2021.

The OEB grants London Hydro's request for an extension.

Yours truly,

Original Signed By

Christine E. Long
Registrar
