Vice President, Reliability Standards and Chief Regulatory Officer

BY EMAIL AND RESS

November 3, 2020

Ms. Christine E. Long Board Secretary Ontario Energy Board Suite 2700, 2300 Yonge Street P.O. Box 2319 Toronto, ON M4P 1E4

Dear Ms. Long:

EB-2020-0032 - Hydro One Remote Communities Inc. - 2021 Annual Rate Update - Application and Evidence

Pursuant to section 78 of the *Ontario Energy Board Act, 1998*, please find enclosed Hydro One Remote Communities Inc.'s Application and Evidence in support of proposed 2021 distribution rates under the Ontario Energy Board's 4th Generation Incentive Regulation Mechanism.

An electronic copy of this application has been submitted using the Board's Regulatory Electronic Submission System.

Sincerely,

Frank D'Andrea

Frank D'andres

ONTARIO ENERGY BOARD

IN THE MATTER OF the Ontario Energy Board Act, 1998;

AND IN THE MATTER OF an Application by Hydro One Remote Communities Inc.

for an Order or Orders approving rates for the distribution and generation of electricity.

APPLICATION

1. The Applicant is Hydro One Remote Communities Inc., a subsidiary of Hydro One Inc. The Applicant, which will hereinafter be referred to as "Remotes," is an Ontario corporation with its head office in Toronto. The Applicant is an integrated generation and distribution company licensed to generate and distribute electricity within 22 isolated communities in northern Ontario.

2. Remotes hereby applies to the Ontario Energy Board (the "Board"), pursuant to section 78 of the *Ontario Energy Board Act, 1998*, for an Order or Orders approving customer rates as of May 1, 2021, for the distribution and generation of electricity. If the requested rate orders cannot be made effective by that time, Remotes requests an interim Order making its current revenue requirement and charges effective on an interim basis as of May 1, 2021, and establishing an account to recover any differences between the interim rates and the final rates effective May 1, 2021.

3. Remotes is seeking approval of rates derived by applying the 4th Generation Incentive Regulation Mechanism ("4th Generation IRM") price cap to its customer rates. Based on the Board's formulaic model, Remotes is seeking approval of

Filed: 2020-11-03 EB-2020-0032 Exhibit A Tab 2 Schedule 1 Page 2 of 5

increased base rates for the distribution and generation of electricity of 2.00 per cent relative to rates effective May 1, 2020.

4. In the Board's Decision and Rate Order on Remotes application for rates and other charges effective May 1, 2020 (EB-2019-0045) and in light of the COVID-19 emergency, the Tariff of Rates and Charges set out in Schedule A of the Decision and Rate Order were approved to be implemented on November 1, 2020 if Remotes notified the OEB that it is electing to postpone the implementation of its new rates until November 1, 2020. On April 20, 2020, Remotes filed a letter with the OEB notifying the Board that Remotes elected to postpone the implementation of its new rates until November 1, 2020. On September 15, 2020 and in accordance with the guidance provided by the OEB in its letter dated April 17, 2020, Remotes filed its COVID-19 Forgone Revenue Rate Rider Model, seeking recovery of the forgone revenues over a six-month period with a sunset date of April 30, 2021. On October 8, 2020, the Board, issued its Final Rate Order, authorizing Remotes to implement its new rates on November 1, 2020, including a rate rider for the recovery of forgone revenues resulting from postponing rate implementation in response to COVID-19. The rider, titled "Rate Rider for Recovery of COVID-19 Forgone Revenue from Postponing Rate Implementation", appears in the current Tariff of Rates and Charges in this application.

22

23

24

5. Remotes seeks approval of rates for residential, general service and Standard A customers.

¹ On April 16, 2020, the OEB issued a letter to all May 1 filers offering the option of postponing rate implementation to November 1, 2020. On April 17, 2020, the OEB issued clarification that if May 1 filers choose to defer rate implementation to November 1, 2020, the amounts would be treated similarly to amounts tracked in a forgone revenue rate rider.

Filed: 2020-11-03 EB-2020-0032 Exhibit A Tab 2 Schedule 1 Page 3 of 5

6. Remotes is exempt from the competitive market. Remotes generates electricity 1 primarily at diesel generating stations in certain isolated communities in the far 2 North and distributes the electricity to customers in each community. 3 4 7. The written evidence filed with the Board may be amended from time to time 5 prior to the Board's final decision on the Application. Further, the Applicant may 6 seek meetings with Board staff and intervenors in an attempt to identify and reach 7 agreements to settle issues arising out of this Application. 8 8. The persons affected by this Application are the ratepayers of Remotes and of 9 Rural or Remote Rate Protection. It is impractical to set out their names and 10 addresses because they are too numerous. 11 12 9. Remotes requests that a copy of all documents filed with the Board by each party 13 to this Application be served on the Applicant and the Applicant's counsel as 14 follows: 15 16 a) The Applicant: 17 18 Ms. Eryn MacKinnon 19 Sr. Regulatory Coordinator 20 Hydro One Networks Inc. 21 Address for Personal Service: 22 7th Floor, South Tower 23 483 Bay Street 24

2

3

4

2. REMOTES' BUSINESS ENVIRONMENT

Remotes functions in a unique environment. Extremely low customer densities, a harsh

8 climate, logistical challenges related to transportation, along with the absence of an

9 integrated transmission system and complex funding arrangements with third parties, set

10 Remotes apart from other Ontario electricity distributors. This unique operating

environment has a profound impact on operations and costs throughout Remotes' service

12 area.

13

The communities served by Remotes are isolated and are scattered across the far North of

the Province. Fourteen communities are not accessible by year-round road and can be

accessed only by aircraft, winter road or, in the case of one community, by barge. The

size and isolation of Remotes' service territory also means that the transportation and

accommodation of staff, fuel, and equipment is a key driver of Remotes' costs. The use

and viability of winter roads to reach these communities is a major cost variable within

Remotes' operations. If a winter road cannot be built in a given year, fuel costs,

equipment costs and overall maintenance costs increase.

2223

27

28

19

20

21

Remotes inherited Ontario Hydro's obligations to provide electricity to off-grid

24 communities, which were originally negotiated with the federal and provincial

25 governments. Under these arrangements, the federal and provincial governments funded

the original capital installation of facilities. In First Nation communities, the

arrangements with the federal government, through Indigenous Services Canada ("ISC"),

remain in place. These Agreements specify that Remotes is responsible for funding

Filed: 2020-11-03 EB-2020-0032 Exhibit A Tab 3 Schedule 1 Page 3 of 5

- ongoing operation and maintenance of the system and that ISC is responsible for funding
- capital related to system expansions and capital upgrades. Remotes' revenue requirement
- does not include funding for these capital projects, and Remotes does not depreciate this
- 4 contributed capital.

5 6

3. DISTRIBUTION

- Remotes operates 19 isolated, plus one grid-connected distribution system to serve the 22
- 8 communities. Within each system, Remotes is responsible for transformation, voltage
- 9 regulation, delivery and metering of power. Because the communities are far from each
- other, the distribution systems are isolated, distinct and stand-alone. These distribution
- systems operate at distribution voltages ranging from 4.8 kV to 25 kV.

12 13

14

15

- The fixed distribution assets in service include approximately 280 kilometres of line and transformers distributed throughout the system, which are used for voltage transformation. Billing meters are used to measure energy consumption at customer
- supply points.

17 18

4. **GENERATION**

- Due to the lack of grid connection in all but one community, Remotes generates
- electricity to meet its obligations under section 29 of the *Electricity Act*, 1998. Diesel
- generation is currently the prime source of electricity within the communities. Remotes
- 22 also owns and operates two run-of-the-river mini-hydroelectric generating facilities and
- has four demonstration project windmills. The feasibility of using further renewable
- technologies is continually examined as new technologies evolve, but diesel is currently
- 25 the most reliable and cost-effective technology.

26

- There are presently 57 diesel generators in service, ranging in size from 60 kW to 1,500
- kW. Most stations have three generators, sized to meet community load at different times

Filed: 2020-11-03 EB-2020-0032 Exhibit A Tab 3 Schedule 1 Page 4 of 5

- of the day. Automated operation ensures that the generation units are run to maximize
- fuel efficiency by matching the generator size to the community load. Depending on
- electrical demand, Remotes handles over 18 million litres of diesel fuel each year.

4 5

5. ENVIRONMENTAL MANAGEMENT SYSTEM

Remotes developed an Environmental Management System ("EMS") in 1999 to help 6 address a history of spills and to improve environmental performance. In the course of 7 developing and implementing the EMS, Remotes has transformed itself into an 8 environmental leader, recognized provincially and nationally for its environmental 9 record. In 2001, Remotes was awarded the Canadian Council of Ministers of the 10 Environment National Pollution Prevention Award for Small Business in Canada. In 11 2002, Remotes achieved ISO 14001 registration of its EMS. This international 12 registration is in addition to the significant environmental improvements achieved since 13 implementing the EMS. Remotes has achieved operating efficiency improvements 14 through installation of automated Programmable Logic Controller ("PLC") controls, 15 Supervisory Control and Data Acquisition ("SCADA") systems, upgraded engines and 16 redesigned generating and fuel-handling software to support its PLC programs, all of 17 which have resulted in improved efficiency, reduced use of diesel fuel and lower 18 atmospheric emissions. 19

2021

22

23

24

25

26

In 2003, Remotes developed and adopted an Emission Reduction Strategy and submitted an application and Action Plan for Reducing Greenhouse Gases ("GHG") to the Environment Canada Voluntary Challenge Registry (now known as "Clean Start"). Since this date, Remotes continues to review its progress annually; and although regulatory requirements for reporting have changed, Remotes continues to voluntarily report its GHG emissions.

Filed: 2020-11-03 EB-2020-0032 Exhibit A Tab 3 Schedule 1 Page 5 of 5

6. GOVERNMENT REGULATION AND REMOTE COMMUNITY RATES

1

10

13

14

15

16

- 2 Remotes serves approximately 4,260 customers. Most customers within Remotes' service
- territory pay rates below the cost of service. Historically, rates for these Residential and
- 4 General Service customers have been financially supported through a cross-subsidy from
- 5 government customers within Remotes who historically have paid rates above cost
- 6 (Standard A Rates); through capital contributions; and through Rural or Remote Rate
- 7 Protection ("RRRP"). RRRP funding is currently set at \$35.223 million per year. This
- 8 amount is funded through a charge to all grid-connected customers in Ontario that is set
- by the Board to fund rate protection in rural and remote areas of the province.

O. Reg. 442/01, the provincial regulation under the Ontario Energy Board Act, 1998, that also established RRRP, sets out two broad categories of customers in Remotes:

- Customers who receive Rural or Remote Rate Protection ("Residential and General Service" customers); and
- Customers occupying Government premises, defined as customers who receive direct or indirect funding from government ("Standard A" customers).

Filed: 2020-11-03 EB-2020-0032 Exhibit A Tab 4 Schedule 1 Page 1 of 2

SERVICE AREA MAP

2

1

- The map in Figure 1 is a representation of Remotes' service territory. It is not a substitute
- for the written description in the licence. Remotes is licensed to serve 22 communities in
- 5 Ontario. The generating station in Armstrong also serves the Whitesands Reserve and the
- 6 settlement of Collins through a single distribution system and generation station. The
- 7 community of Pikangikum is grid connected.

8

- 9 Communities Served by Hydro One Remote Communities Inc. are:
- 1. Armstrong (also see Collins and Whitesand)
- 11 2. Bearskin Lake
- 3. Big Trout Lake/ Kitchenuhmaykoosib Inninuwug
- 4. Biscotasing
- 5. Collins/Namaygoosisagagun (served through the Armstrong distribution system)

REMOTES' APPROACH TO 4TH GENERATION IRM

2

1

Remotes is an integrated generation and distribution company licensed to generate and distribute electricity within 22 isolated communities in northern Ontario. Consistent with

the Board's decision in RP-1998-0001, Remotes is 100 per cent debt-financed and is

operated as a breakeven company with no return on equity.

7

8 The majority of Remotes' customers are eligible for RRRP under Section 79 of the

9 Ontario Energy Board Act, 1998 ("the Act"). Regulation 442/01 under the Act requires

the Board to calculate Rate Protection for these customers and requires that Remotes

charge rates that are not based on the cost of service.

12 13

14

11

Remotes believes that rates in its communities should be comparable to rates in the rest of the province and is therefore filing an application for rates under the Board's IRM

15 process.

16

17 Remotes conducts its operations under a cost-recovery model applied to achieve

breakeven results of operations after the inclusion of Income Taxes. Any excess or

deficiency in revenues necessary to achieve breakeven results is added to, or drawn from,

the RRRP variance account, which was established in 2002 for this purpose. About two-

thirds of Remotes' revenues come from RRRP. Remotes does not plan to seek approval

to adjust the level of RRRP at this time.

23

21

The model prepared by Board staff for 4th Generation Incentive Regulation does not

accommodate Remotes' rates. Remotes has therefore used its own model using its 2020

approved rates as the basis.

Filed: 2020-11-03 EB-2020-0032 Exhibit B Tab 1 Schedule 1 Page 1 of 2

DEVELOPMENT OF DISTRIBUTION RATES FOR MAY 1, 2021

2

1

1. DERIVATION OF PROPOSED RATES

- 4 Remotes' proposed 2021 rates are derived using Price Cap Incentive Regulation,
- 5 following the OEB Filing Requirements for Electricity Distribution Applications last
- 6 revised on July 15, 2019.

7

- 8 In its Decision in EB-2013-0142, the Board noted, "Hydro One Remotes is unique in
- 9 terms of its operating characteristics and cost recovery due to the RRRP. The assignment
- of a higher stretch factor would not provide the intended incentive to the distributor or
- benefit to its customers." Given these unique characteristics, the Board found that "a 0%
- stretch factor is appropriate." Accordingly, Remotes has used the Board's 2020 Price
- Index of 2.00%, a Productivity Factor of 0.00% and associated Stretch Factor Value of
- 14 0.00%. The resulting Price Cap Index is 2.00%.

15

- The starting point for all customer rates in this Application is the 2020 rates approved by
- the Board in Proceeding EB-2019-0045. Remotes' rate classes are defined by provincial
- Regulation and are not based on cost. Remotes is an integrated utility, and its rates are
- "bundled" to include charges for both generation and distribution services.
- 20 Consequently, the Board's approved rate design to move toward all fixed distribution
- rates does not apply to Remotes' customer rates and has not been considered as part of
- 22 this 4GIRM-Price Cap Index application.

23

- The Price Cap Index was applied equally to all customer classes and to all consumption
- thresholds. The Price Cap Index has also been applied to Remotes' bundled rates and
- thereby to both generation and distribution services.

Filed: 2020-11-03 EB-2020-0032 Exhibit B Tab 1 Schedule 1 Page 2 of 2

2. BILL IMPACT ANALYSIS

- 2 Remotes is including the bill impact calculations of applying the two factor Implicit Price
- Index ("IPI") for residential customer classes at 750 kWh per month and for general
- service customers at 2,000 kWh per month. The impacts are shown in the Rate Model in
- 5 Exhibit B, Tab 2, Schedule 1.

6

1

- 7 The impacts of all the proposed rate changes for each customer class based on average
- 8 consumption do not exceed 10 per cent on total bill, and therefore no bill impact
- 9 mitigation is required, as per Board guidelines.

10 11

3. RATE SCHEDULES

- The current and proposed rate schedules and specific service charges are included in the
- Rate Model in Exhibit B, Tab 2, Schedule 1 as well as in Exhibit C, Tab 1, Schedule 1,
- 14 Current Remotes Rate Schedules and Exhibit C, Tab 2, Schedule 1, Proposed Remotes
- Rate Schedules. The specific service charges are unchanged from those approved in
- 16 Proceeding EB-2015-0080.

YEAR-ROUND RESIDENTIAL - R2 Service Classification

This classification refers to a residential service that is the principal residence of the customer. This classification may include additional buildings served through the same meter, provided they are not rental income units. To be classed as year round residential, all of the following criteria must be met:

- Occupants must state that this is their principal residence for purposes of the Income Tax Act;
- The occupant must live in this residence for at least 8 months of the year;
- The address of this residence must appear on the occupant's electric bill, driver's licence, credit card invoice, property tax bill, etc.;
- Occupants who are eligible to vote in Provincial or Federal elections must be enumerated for this purpose at the address of this residence.
 Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments
thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

Service Charge	\$	20.50
Rate Rider for Recovery of COVID-19 Forgone Revenue from Postponing Rate Implementation - Service Charge

GENERAL SERVICE SINGLE PHASE - G1 Service Classification

This classification is applicable to any service that does not fit the description of the year-round residential or seasonal residential. Generally, it is comprised of commercial, administrative, recreational, and auxiliary services. It includes combination of services where a variety of uses are made of the service by the owner of one property, and all multiple services except residential. This classification is applicable to General Service Single Phase customers. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

GENERAL SERVICE THREE PHASE - G3 Service Classification

This classification is applicable to any service that does not fit the description of the year-round residential or seasonal residential. Generally, it is comprised of commercial, administrative, recreational, and auxiliary services. It includes combination of services where a variety of uses are made of the service by the owner of one property, and all multiple services except residential. This classification is applicable to General Service Three Phase customers. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

STREET LIGHTING Service Classification

The energy consumption for street lights is estimated based on Remotes' profile for street lighting load, which provides the amount of time each month that the street lights are operating. Streetlight charges include:

- An energy charge based on installed load, at a rate approved annually (Dollars per kWh x # of fixtures x billing);
- A pole rental charge approved annually, when the light is attached to a Remotes' pole.

Remotes must approve the location of new lighting installations on its poles and the streetlight owner must enter into an agreement to use such poles.

Remotes will make the electrical service connection of all streetlights to the distribution system. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments
thereto as approved by the Board, which may be applicable to the administration of this schedule.
No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the
distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board,
and amendments thereto as approved by the Board, or as specified herein.
It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are
not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

STANDARD A RESIDENTIAL ROAD/RAIL Service Classification

Standard A rates are applicable to all accounts paid directly or indirectly out of Federal and/or Provincial government revenue, subject to the following exceptions:

- Canada Post Corporation, Hydro One Inc. or a subsidiary of Hydro One Inc.
- social housing
- a recreational or sports facility
- · a radio, television or cable television facility
- · a library

Any Standard A account may be reclassified as General Service, Residential Year-Round or Residential-Seasonal at any time. To reclassify a Standard A account, a letter from the accountable Federal and/or Provincial Government agency must be provided to Remotes stating that the account does not receive any direct and/or indirect funding of a continuous nature. An alternative to this letter would be a declaration from a Director of the organization stating that the organization receives no funding. This declaration must be accompanied by an audited statement, which includes the funding source. An example of direct funding is an MTO account paid directly by MTO. An example of indirect funding is a First Nation School account paid by a First Nation through funding by Aboriginal Affairs and Northern Development Canada. Further servicing details are available in the distributor's Conditions of Service. This classification is applicable to residential customers in communities that are accessible by a year-round road or by rail.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

YEAR-ROUND RESIDENTIAL - R2 Service Classification

This classification refers to a residential service that is the principal residence of the customer. This classification may include additional buildings served through the same meter, provided they are not rental income units. To be classed as year round residential, all of the following criteria must be met:

- Occupants must state that this is their principal residence for purposes of the Income Tax Act;
- The occupant must live in this residence for at least 8 months of the year;
- The address of this residence must appear on the occupant's electric bill, driver's licence, credit card invoice, property tax bill, etc.;
- Occupants who are eligible to vote in Provincial or Federal elections must be enumerated for this purpose at the address of this residence. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.
No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.
It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

STREET LIGHTING Service Classification

The energy consumption for street lights is estimated based on Remotes' profile for street lighting load, which provides the amount of time each month that the street lights are operating. Streetlight charges include:

- An energy charge based on installed load, at a rate approved annually (Dollars per kWh x # of fixtures x billing);
- A pole rental charge approved annually, when the light is attached to a Remotes' pole.

Remotes must approve the location of new lighting installations on its poles and the streetlight owner must enter into an agreement to use such poles.

Remotes will make the electrical service connection of all streetlights to the distribution system. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments
thereto as approved by the Board, which may be applicable to the administration of this schedule.
No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the
distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board,
and amendments thereto as approved by the Board, or as specified herein.

STANDARD A RESIDENTIAL ROAD/RAIL Service Classification

Standard A rates are applicable to all accounts paid directly or indirectly out of Federal and/or Provincial government revenue, subject to the following exceptions:

- Canada Post Corporation, Hydro One Inc. or a subsidiary of Hydro One Inc.
- social housing
- a recreational or sports facility
- · a radio, television or cable television facility
- · a library

Any Standard A account may be reclassified as General Service, Residential Year-Round or Residential-Seasonal at any time. To reclassify a Standard A account, a letter from the accountable Federal and/or Provincial Government agency must be provided to Remotes stating that the account does not receive any direct and/or indirect funding of a continuous nature. An alternative to this letter would be a declaration from a Director of the organization stating that the organization receives no funding. This declaration must be accompanied by an audited statement, which includes the funding source. An example of direct funding is an MTO account paid directly by MTO. An example of indirect funding is a First Nation School account paid by a First Nation through funding by Aboriginal Affairs and Northern Development Canada. Further servicing details are available in the distributor's Conditions of Service. This classification is applicable to residential customers in communities that are accessible by a year-round road or by rail.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

NON STANDARD A YEAR ROUND RESIDENTIAL SERVICE CLASSIFICATION – R2

This classification refers to a residential service that is the principal residence of the customer. This classification may include additional buildings served through the same meter, provided they are not rental income units. To be classed as year round residential, all of the following criteria must be met:

- Occupants must state that this is their principal residence for purposes of the Income Tax Act;
- The occupant must live in this residence for at least 8 months of the year;
- The address of this residence must appear on the occupant's electric bill, driver's licence, credit card invoice, property tax bill, etc.;
- Occupants who are eligible to vote in Provincial or Federal elections must be enumerated for this purpose at the address of this residence.

Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

STREET LIGHTING SERVICE CLASSIFICATION

The energy consumption for street lights is estimated based on Remotes' profile for street lighting load, which provides the amount of time each month that the street lights are operating. Streetlight charges include:

- An energy charge based on installed load, at a rate approved annually (Dollars per kWh x # of fixtures x billing);
- A pole rental charge approved annually, when the light is attached to a Remotes' pole.

Remotes must approve the location of new lighting installations on its poles and the streetlight owner must enter into an agreement to use such poles. Remotes will make the electrical service connection of all streetlights to the distribution system. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

STANDARD A RESIDENTIAL ROAD/RAIL ACCESS SERVICE CLASSIFICATION

Standard A rates are applicable to all accounts paid directly or indirectly out of Federal and/or Provincial government revenue, subject to the following exceptions:

- Canada Post Corporation, Hydro One Inc. or a subsidiary of Hydro One Inc.
- social housing
- · a recreational or sports facility
- a radio, television or cable television facility
- a library

Any Standard A account may be reclassified as General Service, Residential Year-Round or Residential-Seasonal at any time. To reclassify a Standard A account, a letter from the accountable Federal and/or Provincial Government agency must be provided to Remotes stating that the account does not receive any direct and/or indirect funding of a continuous nature. An alternative to this letter would be a declaration from a Director of the organization stating that the organization receives no funding. This declaration must be accompanied by an audited statement, which includes the funding source. An example of direct funding is an MTO account paid directly by MTO. An example of indirect funding is a First Nation School account paid by a First Nation through funding by Aboriginal Affairs and Northern Development Canada. Further servicing details are available in the distributor's Conditions of Service.

This classification is applicable to residential customers in communities that are accessible by a year-round road or by rail.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

Any Standard A account may be reclassified as General Service, Residential Year-Round or Residential-Seasonal at any time. To reclassify a Standard A account, a letter from the accountable Federal and/or Provincial Government agency must be provided to Remotes stating that the account does not receive any direct and/or indirect funding of a continuous nature. An alternative to this letter would be a declaration from a Director of the organization stating that the organization receives no funding. This declaration must be accompanied by an audited statement, which includes the funding source. An example of direct funding is an MTO account paid directly by MTO. An example of indirect funding is a First Nation School account paid by a First Nation through funding by Indian and Northern Affairs Canada. Further servicing details are available in the distributor's Conditions of Service.

This classification is applicable to all non-residential Standard A customers in communities that are not accessible by a year-round road or by rail.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

NON STANDARD A YEAR ROUND RESIDENTIAL SERVICE CLASSIFICATION – R2

This classification refers to a residential service that is the principal residence of the customer. This classification may include additional buildings served through the same meter, provided they are not rental income units. To be classed as year round residential, all of the following criteria must be met:

- Occupants must state that this is their principal residence for purposes of the Income Tax Act;
- The occupant must live in this residence for at least 8 months of the year;
- The address of this residence must appear on the occupant's electric bill, driver's licence, credit card invoice, property tax bill, etc.;
- Occupants who are eligible to vote in Provincial or Federal elections must be enumerated for this purpose at the address of this residence.

Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

NON STANDARD A GENERAL SERVICE SINGLE PHASE SERVICE CLASSIFICATION – G1

This classification is applicable to any service that does not fit the description of the year-round residential or seasonal residential. Generally, it is comprised of commercial, administrative, recreational, and auxiliary services. It includes combination of services where a variety of uses are made of the service by the owner of one property, and all multiple services except residential. This classification is applicable to General Service Single Phase customers. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

EB-2020-0032

STREET LIGHTING SERVICE CLASSIFICATION

The energy consumption for street lights is estimated based on Remotes' profile for street lighting load, which provides the amount of time each month that the street lights are operating. Streetlight charges include:

- An energy charge based on installed load, at a rate approved annually (Dollars per kWh x # of fixtures x billing);
- A pole rental charge approved annually, when the light is attached to a Remotes' pole.

Remotes must approve the location of new lighting installations on its poles and the streetlight owner must enter into an agreement to use such poles. Remotes will make the electrical service connection of all streetlights to the distribution system. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

STANDARD A RESIDENTIAL ROAD/RAIL ACCESS SERVICE CLASSIFICATION

Standard A rates are applicable to all accounts paid directly or indirectly out of Federal and/or Provincial government revenue, subject to the following exceptions:

- Canada Post Corporation, Hydro One Inc. or a subsidiary of Hydro One Inc.
- social housing
- a recreational or sports facility
- a radio, television or cable television facility
- a library

Any Standard A account may be reclassified as General Service, Residential Year-Round or Residential-Seasonal at any time. To reclassify a Standard A account, a letter from the accountable Federal and/or Provincial Government agency must be provided to Remotes stating that the account does not receive any direct and/or indirect funding of a continuous nature. An alternative to this letter would be a declaration from a Director of the organization stating that the organization receives no funding. This declaration must be accompanied by an audited statement, which includes the funding source. An example of direct funding is an MTO account paid directly by MTO. An example of indirect funding is a First Nation School account paid by a First Nation through funding by Aboriginal Affairs and Northern Development Canada. Further servicing details are available in the distributor's Conditions of Service.

This classification is applicable to residential customers in communities that are accessible by a year-round road or by rail.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.
