Dear Ms. Long:

**Re: EB-2020-0150 – NextBridge 2020-2024 Transmission Revenue Cap IR  
Application and Evidence Filing**

We act for Upper Canada Transmission Inc., operating as NextBridge Infrastructure, LP (“**NextBridge**”). We have submitted NextBridge’s Transmission Revenue Cap IR Application for the period March 31, 2022 to December 31, 2031, along with corresponding Excel documents in support of the Application, using the Board’s Regulatory Electronic Submission System.

NextBridge will post electronic copies of the Application and supporting evidence on its website for public access. In accordance with the Board’s June 23, 2020 Digitization Program Announcement, hardcopies of the Application will not be delivered.

Given that NextBridge operates a single transmission asset, with minimal operating costs and no forecast capital expenditures, we propose that this Application would be most effectively dealt with in written form. We also encourage the OEB to make provision for a settlement conference to assist with the expediency of the Application.

Please direct any questions regarding the filing of this Application to the undersigned.

Yours truly,

McCarthy Tétrault LLP

A handwritten signature in blue ink, appearing to read 'George Vegh'.
