Ms. Christine Long

Board Secretary

Ontario Energy Board

2300 Yonge Street, Suite 2700, P.O. Box 2319

Toronto, Ontario M4P 1E4

Dear Ms. Long:

Re: EB-2020-0091 – Integrated Resource Planning Framework Proceeding

I am writing on behalf of Environmental Defence and the Green Energy Coalition to request a brief extension of the deadline to file our evidence by two business days. This brief indulgence is required because the expert witness, Chris Neme, recently had to travel out of state for eight days to attend to a family medical emergency. This significantly set back his work. Although we had hoped to meet the original deadline of Thursday, November 19, 2020, we are now requesting an extension of two business days to Monday, November 23, 2020.

We believe this is warranted because:

- The emergency circumstances justify the additional time;
- The time requested is very small and will not have a material impact on the timing of this proceeding; and
- The additional time would help to ensure that the Board is provided with more useful evidence in this proceeding.

Thank you for considering this request.

Yours truly,

Kent Elson
