RE: Brantford Power Application for Jan. 2021 IRM Rates (Case No. EB-2020-0006) IPI Level Election

Dear Ms. Long.

Brantford Power Inc. (“BPI”) has received and reviewed the OEB’s Letter of November 9th, 2020 regarding 2021 Inflation Parameters (the “Letter”).

In the Letter, the OEB provided Local Distribution Companies with “the discretion of electing the calculated IPI level per the OEB-approved methodology[...]or a lower value”.

BPI is writing to confirm its election to apply the calculated value per the OEB specific methodology, ie: 2.2% for Local Distribution Companies. BPI has been assigned a stretch factor of 0.3% and therefore expects the IRM adjustment applicable for January 1, 2021 rates to be 1.9%.

Sincerely,

Original Signed By

Oana Stefan
