**Re: 2021 IRM4 Rate Applications: Rate Zones – Entegrus-Main & Entegrus-St. Thomas  
Board File No.: EB-2020-0015**

Dear Ms. Long,

As per the Board's letter entitled "*2021 Inflation Parameters*", dated November 9, 2020, Entegrus Powerlines Inc. ("Entegrus") wishes to notify the Board of its plan to continue to utilize the unadjusted Board-approved inflation parameter of 2.20% for 2021 distribution rates.

Specifically, for both the Entegrus – Main rate zone (for distribution rates effective May 1, 2021) and the Entegrus – St. Thomas rate zone (for distribution rates effective Jan 1, 2021), this would result in a 2021 net escalation adjustment of 2.05% (i.e. the 2.20% IPI factor less Entegrus' assigned Cohort II stretch factor of 0.15%).

If you have any further questions, please do not hesitate to contact us.

Regards,
