**RE: EB-2020-0212 – EGI Federal Carbon Pricing Program
FRPO Correspondence**

This purpose of this letter is to advise the Board that FRPO will not be submitting interrogatories to EGI for this application. Given the Board's clarifications in its November 20th Decision on Scope of Proceeding and a review of our issues in conjunction with the interrogatories of Energy Probe (EP), we have no further questions of EGI. We do, however, look forward to reviewing EGI's responses to EP inquiry and, perhaps, those of Board staff.

Respectfully Submitted on Behalf of FRPO,

Dwayne R. Quinn
Principal
DR QUINN & ASSOCIATES LTD.
