Registrar and Board Secretary
Ontario Energy Board

Dear Ms. Long:

**Re: Enbridge Gas Inc. (EGI) EB-2020-0094
Harmonized System Expansion Surcharge, Temporary Connection Surcharge and Hourly
Allocation Factor
Submission on the Draft Rate Order**

In accordance with the Board's Decision and Order EB-2020-0094 these are the submission of VECC with respect to the Draft Rate Order of EGI in the above noted proceeding.

VECC has reviewed the submission of Board Staff of November 23, 2020 in the noted proceeding. We are in agreement with those submissions. The Board clearly states in its Order that a contribution-in-aid of construction cannot be charged in combination with the TCS. As such the proposed revisions of Staff are in keeping with that Decision. For greater clarity we suggest that with respect to Rider I the words "*and/or*" be replaced by the words "*or alternatively*" rather than "*or*" as suggested by Staff.

Yours truly,
