November 24, 2020

**Re: EB-2019-0159 2021 Dawn Parkway Expansion Project  
Pollution Probe Submission on Final Cost Claim**

Dear Ms. Long:

In accordance with the OEB's Procedural Order #8 dated November 18, 2020, please find below the submission from Pollution Probe on its Cost Claim for the above noted proceeding. In Procedural Order #8, the OEB requested that Pollution Probe file a submission on the reasonableness of its final cost claim. The OEB also invited Parties that filed comments on the notice of withdrawal from Enbridge Gas to file an additional cost claim related to those costs. Pollution Probe provided submissions related to the Enbridge's application withdrawal request. However, it is not intending to file an additional cost claim. Due in part to current COVID protocols, preparation of an additional cost claim would be prohibitive, especially when compared to the minor additional costs related to the withdrawal submission. Pollution Probe always participates in a responsible manner and strives to ensure value is added to the process through its participation and coordination. In this case it does not make sense to submit an additional cost claim.

Pollution Probe only requests approval for the residual amount of its Cost Claim filed June 2, 2020 for this proceeding. For convenience, a copy is attached to this submission.

Pollution Probe Costs Claim (dated June 2, 2020)	\$41,429.19
OEB Interim Costs Award (July 15, 2020)	\$30,000.00
Residual Cost Award Request	\$11,429.19

Pollution Probe followed and supported the process defined by the Board and represented a direct consumer and policy perspective aligned with the Board's mandate in this proceeding (i.e. consumer, environmental, policy, and financial issues). Pollution Probe acted responsibly and efficiently during the proceeding and coordinated with stakeholders to avoid duplication.

Pollution Probe was one of three intervening parties that arranged for an expert witness in this proceeding. Pollution Probe's expert witness (Ralph Torrie) has over 40 years of experience including with Provincial policy, community energy planning and energy alternatives related to the proceeding.

Pollution Probe also led on certain issues including environmental and socio-economic impacts and provided interrogatories and written correspondence related to those additional issues. Although Pollution Probe initially intended to also secure a witness related to those issues, following communication with OEB Staff, Pollution Probe decided that it would be more cost-effective to use its current resources and then cross-examine the Enbridge environmental consultant during the proceeding. Pollution Probe also communicated with local stakeholders that could have potentially participated if needed during the proceeding. There is significant effort associated with securing and orienting expert witnesses for such a proceeding and Pollution Probe considered this the most appropriate approach in this case.

Upon receiving the OEB's adjournment notice on May 19, 2020 Pollution Probe ceased all proceeding activity, including work with its expert witness. Although the proceeding was suspended many weeks before intervenor evidence was due to be completed, Pollution Probe was on track to complete and file evidence by June 1, 2020 in accordance with Procedural Order #5. By halting all activities at the time of the adjournment, additional costs related to completion of the evidence were avoided.

Pollution Probe coordinated efficiently with other stakeholders to avoid duplication. The Cost Claim submitted by Pollution Probe includes costs related to its expert witness and Pollution Probe submits that the residual costs of \$11,429.19 are reasonable and well within the range of other intervenors in a similar position.

Please do not hesitate to reach out should you have any questions or require anything additional.

Respectfully submitted on behalf of Pollution Probe.

**Re: EB-2019-0159 2021 Dawn Parkway Expansion Project  
Pollution Probe Cost Claim**

Dear Ms. Long:

In accordance with the OEB's Procedural Order #7 and Decision on Adjournment dated May 19, 2020, please find attached the cost claim from Pollution Probe for the above noted proceeding. Pollution Probe followed and supported the process defined by the Board and represented a direct consumer and policy perspective aligned with the Board's mandate in the proceeding (i.e. consumer, environmental, policy, and financial issues). Pollution Probe acted efficiently during the proceeding and coordinated with stakeholders to avoid duplication.

Pollution Probe confirmed to the Board March 10, 2020 of its intent to file evidence in this proceeding and has been actively working with its expert (Ralph Torrie) and related stakeholders. Due to the Board's adjournment Pollution Probe has instructed its expert to cease activity. Should the proceeding recommence, Pollution Probe would need sufficient time to restart those activities and make any adjustments as necessary.

Respectfully submitted on behalf of Pollution Probe.

**Ontario Energy Board**  
**COST CLAIM FOR HEARINGS**

**Affidavit and Summary of Fees and Disbursements**

This form should be used by a party to a hearing before the Board to identify the fees and disbursements that form the party's cost claim. Paper and electronic copies of this form and itemized receipts must be filed with the Board and served on one or more other parties as directed by the Board in the applicable Board order. Please ensure all required (yellow-shaded) fields are filled in and the Affidavit portion is signed and sworn or affirmed.

**Instructions**

- Required data input is indicated by yellow-shaded fields. Formulas are embedded in the form to assist with calculations.
- All claims must be in Canadian dollars. If applicable, state exchange rate and country of initial currency.  
Rate: \_\_\_\_\_ Country: \_\_\_\_\_
- A separate "Detail of Fees and Disbursements Being Claimed" (comprising a "Statement of Fees Being Claimed" and a "Statement of Disbursements Being Claimed") is required for each lawyer, analyst/consultant and articling student/paralegal. However, only one "Summary of Fees and Disbursements" covering the whole of the party's cost claim should be provided.
- The cost claim must be supported by a completed Affidavit signed by a representative of the party.
- A CV for each consultant/analyst must be attached unless provided to the Board as prescribed on the Cost Award Tariff.

Except as provided in section 7.03 of the Practice Direction on Cost Awards, itemized receipts must be provided.

File # EB- <u>2019-0159</u>	Process: <u>Dawn-Parkway Expansion LTC</u>
Party: <u>Pollution Probe</u>	Affiant's Name: <u>Michael Brophy</u>
HST Number: <u>108092701 RT0001</u>	HST Rate Ontario: <u>13.00%</u>

**Affidavit**

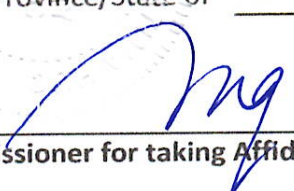

I, Michael Brophy, of the City/Town of Toronto  
in the Province/State of Ontario, swear or affirm that:

1. I am a representative of the above-noted party (the "Party") and as such have knowledge of the matters attested to herein.
2. I have examined all of the documentation in support of this cost claim, including the attached "Summary of Fees and Disbursements Being Claimed", "Statement(s) of Fees Being Claimed" and "Statement(s) of Disbursements Being Claimed".
3. The attached "Summary of Fees and Disbursements Being Claimed", "Statement(s) of Fees Being Claimed" and "Statement(s) of Disbursements Being Claimed" include only costs incurred and time spent directly for the purposes of the Party's participation in the Ontario Energy Board process referred to above.
4. This cost claim does not include any costs for work done, or time spent, by a person that is an employee or officer of the Party as described in sections 6.05 and 6.09 of the Board's Practice Direction on Cost Awards.

- Board Member, Greater Toronto Area Clean Air Partnership (2010-2016)
- Member, Editorial Advisory Board, Alternatives Journal
- Editorial Board, Energy Exchange magazine
- Individual recipient of the Canadian Environment Award

## Ralph D. Torrie

Ralph is an energy systems expert with over 40 years of Canadian and international entrepreneurial, management and consulting experience that includes hundreds of initiatives in research, business development, and public policy. He is President of Torrie Smith Associates, a research and software development firm that he founded in 1979.

He also spent two years as Assistant Coordinator of the Energy Research Group of the United Nations University and the International Development Research Centre, six years as a corporate executive, first as Vice President at ICF International and then as Managing Director at Navigant, both publicly traded U.S. based firms, and two years as Managing Director of the Trottier Energy Futures Project, an innovative collaborative project exploring long-range sustainable energy strategies for Canada.

### *Some career highlights:*

■ As Vice President of ICF International, he assembled and led the team that supported the policy analysis of leading energy and climate change initiatives.

■ As a consultant to the Ontario Power Authority, he predicted the changes in Ontario's electricity market that would see a reversal of historical demand growth, corresponding shifts in preferred investment and growth strategies, and the emergence of new business models for the sector.

■ At the invitation of the Federation of Canadian Municipalities, he wrote the Foundation Paper that established the rationale and prepared the way for federal government support of municipal action on climate change in Canada. He continues to work with Canadian municipal governments in the development of their sustainable growth strategies.

■ Ralph managed the research program of the Energy Research Group of the United Nations University and IDRC, a blue ribbon panel of ten of the leading energy experts from developing countries. The work included commissioning and managing contributions from over 100 associates around the world, and shaping their inputs and the Group's deliberations into recommendations to the donor agencies and the development assistance community.
