

EPCOR Natural Gas Limited Partnership

**Application to change natural gas distribution rates and
other charges effective January 1, 2021**

INTERIM RATE ORDER

November 30, 2020

On October 8, 2020, EPCOR Natural Gas Limited Partnership (ENGLP) filed an application requesting to adjust distribution rates, to include in rate base the costs of the Springwater Pipeline and Putnam to Culloden projects and to dispose of certain deferral and variance account balances.

ENGLP requested that if the OEB does not issue a decision by December 1, 2020, that the OEB issue an interim rate order declaring the current distribution rates interim until such time that the OEB can make a determination on the final 2021 distribution rates.

The OEB will approve the request to declare the existing distribution rates interim effective January 1, 2021. This determination of interim rates continues to be without prejudice to the OEB's decision on ENGLP's application and should not be construed as predictive, in any way whatsoever, of the OEB's final determination of the effective dates for rates arising from the application.

IT IS THEREFORE ORDERED THAT:

1. EPCOR Natural Gas Limited Partnership's current Schedule of Rates and Charges shall be made interim as of January 1, 2021 and until such time as a final rate order is issued by the OEB.
