How we calculated your charges

Balance forward	Amount of your last bill	\$118,270.70
	Amount we received on November 13, 2019 - thank you	\$118,270.70 CR
	Balance forward	\$0.00

Your electricity charges

Your service type is Sub-Transmission

Electricity - kWh

Electricity you used in kilowatt-hours = 2,072,932.0000 kWh

Adjusted usage in kilowatt-hours (2,072,932.0000 x 1.0340*) = 2,143,411.6880 kWh

Demand - kW

Demand used in kilowatts = 4,195 kW

Total demand in kilowatts = **4,195 kW**

Electricity: 2,143,411.6880 kWh @ 0.716119 ¢	\$15,349.37
Global Adjustment: 2,153,419.6880 kWh @ 13.680000 ¢	\$294,587.81

Delivery	\$30,504.99
Regulatory Charges	\$8,359.56

HST (87086-5821-RT0001)	\$45,344.22
-------------------------	-------------

Total of your electricity charges	\$394,145.95
--	---------------------

The cost of electricity averaged over all hours is 0.7161 ¢ per kWh. For a detailed calculation using hourly electricity prices, please call the billing and services inquiries phone number on the front of your bill.

Adjustments

WMSC eLDC setoff	\$15.77
Electricity FIT Adj	\$6,303.69 CR
Electricity Bill 100 Adj	\$36,735.62 CR
HST (87086-5821-RT0001)	\$5,593.06 CR
Total adjustments	\$48,616.60 CR

Electricity: This is the cost of the electricity supplied to you during this billing period and is the part of the bill that is subject to competition. The electricity consumed is multiplied by the adjustment factor*. Hydro One collects this money and pays this amount directly to our suppliers.

*When electricity is delivered over a power line, it is normal for a small amount of power to be consumed or lost as heat. Equipment, such as wires and transformers, consumes power before it gets to your home or business. The adjustment factor accounts for these losses.

Global Adjustment: Electricity generators in Ontario receive a combination of payments from the operation of the wholesale market, payments set by regulation and payments under contracts. Your portion of the net adjustments arising from these and other authorized payments is included on your bill as the Global Adjustment.

Delivery: These are the costs of delivering electricity from generating stations across the Province to Hydro One then to your home or business. This includes the cost to build and maintain the transmission and distribution lines, towers and poles and operate provincial and local electricity systems. A portion of these charges are fixed and do not change from month to month. The rest are variable and increase or decrease depending on the amount of electricity that you use.

Regulatory Charges: Regulatory charges are the costs of administering the wholesale electricity system and maintaining the reliability of the provincial grid and include the costs associated with funding Ministry of Energy and Infrastructure conservation and renewable energy programs.

Debt Retirement Charge: The debt retirement charge pays down the debt of the former Ontario Hydro.

NOTE: For a detailed explanation of electricity terms, please visit www.HydroOne.com or www.OEB.ca.
