Re: Westario Power Inc. - EB-2020-0062 - Application for 2021 Rates - draft Rate Order

Dear Registrar:

Please be advised that Westario Power Inc. has reviewed the draft rate order provided in your communication of December 2, 2020 and would like to provide the following comments:

- Table 6.1 indicates that Westario plans to make 12 monthly payments to our Class A customers who were formerly Class B in order to draw down the GA balance. We would prefer to make 1 lump sum payment as we did last year. If agreeable please update the table to say 1 lump sum payment.
- Table 6.2 line for account 1551 has the correct amounts in the principal and interest column but has a transposition error in the Total column. The total amount should be (3,052) instead of (3,502)
- Rates and Tariffs – Specific Service Charges – Other – Specific charge for access to the power poles - \$/pole/year shows a charge of \$45.39 and the most recent version of the rate model spreadsheet shows \$45.48
- Rates and Tariffs – Retail Service Charges – The fixed charge, variable charge, and EBT System Charge for more than twice a year are all out slightly. The amounts are all lower on the Draft Decision Order than they are in the spreadsheet

If further clarification is required please contact me at your convenience.

Sincerely,

Westario Power Inc
Per Malcolm McCallum
Vice President Finance/CFO
