“The electricity regulator (the Ontario Energy Board, “OEB”) has approved new distribution rates for Wellington North Power Inc. effective November 1, 2020 (Ontario Energy Board File # EB-2019-0073). Residential customers using 750 kWh of electricity a month will see a monthly total bill increase of \$1.52, or 1%, before taxes and the Ontario Electricity Rebate.*m”

“Wellington North Power Inc. has applied to the Ontario Energy Board to raise its electricity distribution rates effective May 1, 2021. If the application is approved as filed, a typical residential customer and a typical general service customer of Wellington North Power Inc. would see the following increase.

Residential 750 kWh \$1.23 per month
General Service less than 50kW (2000 kWh) \$6.93 per month”

“There are two types of OEB hearings – oral and written. Wellington North Power has applied for a written hearing” - do NOT listen public.

Wellington North Power has TOTAL monopoly in its service area and hearing or

NOT you WILL have a rate increase as the public has no say during the World's worst crisis of our life time. People are struggling to pay bills and some have to choose between paying utilities or putting food on the table. The Economy is struggling, small and large business and collapsing and closing, but Wellington North Power not going to support its communities, its customers - it has SET COURSE - make profit at ANY cost without any care or adding value to customers.

Wellington North Power services are unreliable. Access to top management remuneration is not available. It is a monopoly company in the operation area - public opinion towards Wellington North Power DEMANDS to raise its electricity distribution rates will NEVER have ANY impact. So WHY this CHARADE of holding a hearing??? Well, to pretend that someone is listening to public, that someone cares...Just cut the crap and openly state - hearing or no hearing- Wellington North Power WILL RAISE the rates at ANY time it wants, by ANY amount it wants, without disclosing how much of that money will go to raising salaries and the payout of opulent bonuses to Wellington North Power top management for providing below mediocre service to customers.

HURRAY to Communism!!!
