---

In response to the OEB's Order on the Wireline Pole Attachment Charge issued on December 10, 2020 (EB-2020-0288), Hydro Ottawa hereby submits the following updated live Excel models as a part of its Draft Rate Order:

- HOL Updated DRO 2020 Current and 2021 Tariff Schedule and Bill Impacts
- HOL Updated DRO Bill Impacts Model 2021-2025

Please note that Hydro Ottawa has not updated revenue requirements for the interim rate issued by the OEB in its Order on Wireline Pole Attachments. The approximate impact of a lower forecasted revenue of \$69,000 has not been incorporated into the 2021 revenue requirement. Any change as a result of the outcomes of the OEB review will be adjusted in accordance with the Settlement Agreement starting in 2022.
